

San Francisco Fleet Week

Saturday & Sunday, October 9th & 10th

In October, OTS attended 'Fleet Week' next to the beautiful San Francisco Bay. Attendees came out in droves to watch a parade of U.S. Navy battle ships and an air show featuring the Canadian Snowbirds. Informational booths, food and entertainment made for a perfect weekend outing!

The OTS booth was bustling on both days with excited visitors eager to check out the latest give-aways and traffic safety information.

OTS Coordinators Dennis Hall and Dave Doucette take a breather from all of the action to show us their favorite OTS give-away--a glo-pen! The pens, with three unique light settings, continue to be the crowd favorite and practically fly off the table at each event.

The Canadian Snowbirds impressed the crowd with their death-defying routines throughout the day. When two planes worked simultaneously to make a "heart" shape in the sky, it was obvious that this show was not to be missed!

These little tykes show off their OTS tic-tac-toe boards, a prize for answering a traffic safety question correctly. Way to go!

Vince gets cozy with some new friends--all the way from Germany! Traffic safety is a subject that affects everyone, whether you live in California or abroad. The OTS staff, along with help from the Crash Test Dummies, make a point to reach out to everyone and provide helpful tips to keep folks safe on the road.
